#### PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

### SUMMARY

Novograd-Volynskiy Army Barracks is located (Figure 1) in the northwest sector of Novograd-Volynskiy. The installation covers approximately 200 acres, has rail access, and is road served.

Within the installation (Figures 2 and 3) are 13 multistory barracks, five multistory administration buildings, 11 administration buildings, a vehicle maintenance building, seven vehicle storage buildings, 43 storage buildings, and 12

support buildings. Two athletic fields are the only training facilities observed.

The installation is active and little change has been noted; however, improvement in the quality of photography reveals buildings that are not new but could not be previously identified.

The installation was covered by KEY-HOLE missions between [REDACTED]

### DESCRIPTION OF INSTALLATION

#### Railroad Service

A railroad yard immediately west of the installation provides rail access, although the installation is not directly rail served.

#### Road Service

The installation is served by hard-surface, all-weather roads.

#### Administrative and Troop Housing Areas

Area D1 contains five multistory barracks, three multistory administration buildings, two administration buildings, six storage buildings, and five support buildings.

Area D2 contains eight multistory barracks,

two multistory administration buildings, five administration buildings, one storage building, and three support buildings.

#### General Storage Area

Area E contains 30 storage buildings.

#### Equipment Storage/Maintenance Area

Area J contains seven vehicle storage buildings, six 270 by 35 feet, and one 200 by 35 feet, one 320- by 65-foot vehicle maintenance building, four administration buildings, seven storage buildings, and four support buildings.

#### Athletic Fields

Areas K1 and K2 are athletic fields.
